

ORDER FORM AND DETAILS FOR NAFEP'S

NEVADA BUSINESS PACKAGE

A Comprehensive Service for Nevada Corporations and LLCs

SPECIAL INFO FOR THE ATTACHED FORM

The attached application for NAFEP's Nevada Business Package gives you a full Nevada presence with registered agent, mail and physical addresses, business license and other NV connections. If you choose to use this service, you may want to use your Mesquite address for the corporation or LLC's official address on the Articles of Inc. (LLC Articles of Organization) The only address, for either mailing or the physical address is:

(Your Business Name)
343 Colleen Ct. Unit E
P.O. Box 2700
Mesquite, NV 89024

NOTE: You must use all four address lines, including both the street address and the P.O. Box for all Nevada addressing purposes.

Also, on your new corporation Articles of Inc. (or LLC Articles of Org.), your Nevada Registered Agent is:

Nevada Business Office, Inc. (owned and controlled by NAFEP)
(Same Mesquite Addresses as above)

NAFEP uses a single phone number and a single fax number for all its corporate/LLC clients, and then we provide an answering service to those clients. If you want this service, you list those common phone and fax numbers on any legal or account record which requires your Nevada numbers. NAFEP answers all incoming calls with the generic greeting, "Nevada Business Office". We then screen out "junk" calls, telemarketing, etc., and then for legitimate calls we either take a message or give out your local number, depending on the situation. For example, if your Nevada bank calls about a bank account problem, we give them your local number so they may reach you quickly. If an attorney representing a creditor calls, we take a message. Phone requests or questions about you or your entity are handled discretely and appropriately by a knowledgeable and trained NAFEP employee. No private information is given out.

Unfortunately, the phone company in Mesquite, NV will no longer provide local listings for our corporate/LLC accounts when those accounts use the common numbers (a recent phone tariff rule prevents this). If having a local listing is important to you, you will have to contact the local phone company and order your own, stand alone phone number. This number could then be forwarded either to you or to NAFEP's "Nevada Business Office" answering service. But your cost would be whatever a single business line costs per month, and you would deal directly with the Mesquite phone company for this service and payments. Either way you handle it, having a Nevada phone number provides further proof of your physical presence and business activity in Nevada.

If you use NAFEP's common phone number approach, we will give you the phone and fax numbers after receiving your attached order for the Nevada Business Package.

Section 1, Required Info:

Corporation/LLC Name: _____ Tax ID# _____
(Only If Available)

Home State Business Physical Address: _____

Home State Business Mail Address: _____

Home State Business Phone: (_____) _____ Home State Business FAX: (_____) _____
